# PneumoRecs VaxAdvisor Mobile App for Vaccine Providers

The PneumoRecs VaxAdvisor Mobile App was updated on February 9, 2023, to reflect CDC's new adult pneumococcal vaccination recommendations including for those who previously received PCV13.

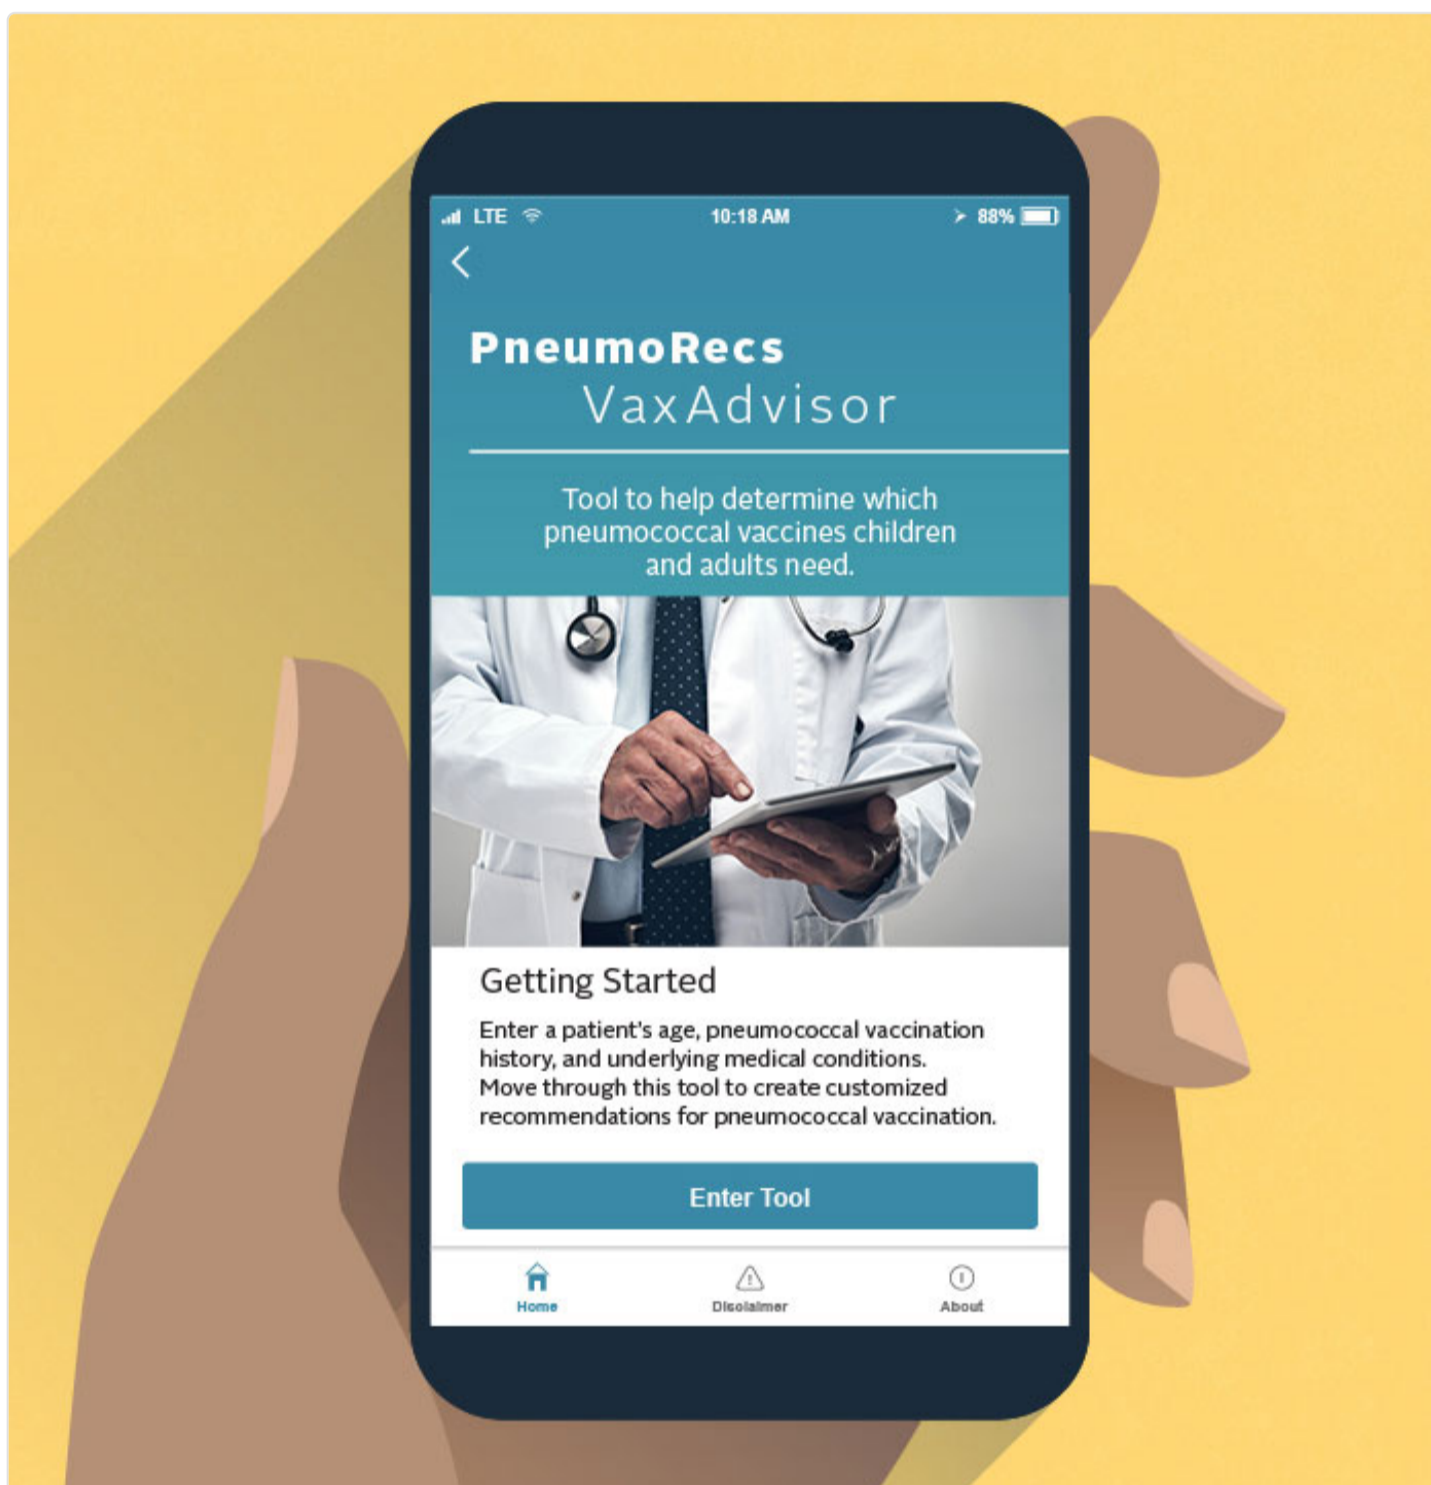

The *PneumoRecs VaxAdvisor* mobile app helps vaccination providers quickly and easily determine which pneumococcal vaccines a patient needs and when. The app incorporates recommendations for all ages so internists, family physicians, pediatricians, and pharmacists alike will find the tool beneficial.

Users simply:

- Enter a patient's age.
- Note if the patient has specific underlying medical conditions.
- Answer questions about the patient's pneumococcal vaccination history.

Then the app provides patient-specific guidance consistent with the immunization schedule recommended by the U.S. Advisory Committee on Immunization Practices (ACIP).

## Download the mobile app or use the web version

PneumoRecs VaxAdvisor is available for download on iOS and Android mobile devices.

Download "PneumoRecs VaxAdvisor" free for [iOS](#) and [Android](#) devices.

If you do not have a device that supports the app, you can access a [web version](#) when connected to the internet through a mobile device or computer. If you use the web version of “PneumoRecs VaxAdvisor,” we recommend adjusting the screen size to look like a smartphone for a better user experience.

**Updates:** CDC will release guideline changes and enhancements to the app itself through app updates.

## Background

*PneumoRecs VaxAdvisor* is a standalone application that provides patient-specific guidance consistent with the ACIP’s pneumococcal vaccination recommendations. Use the app to eliminate the challenge of interpreting and synthesizing multiple vaccination recommendation statements. The app doesn’t request or collect any personal identifying information. It also does not store any information.

CDC welcomes your feedback and questions about *PneumoRecs VaxAdvisor*. If you have technical issues or a question about recommendations displayed by the app, please e-mail [RDB@cdc.gov](mailto:RDB@cdc.gov).
